

Kaiser Wilhelm Abdicates; Official Decree Published

PARIS, Nov. 9.—The abdication of Emperor William is officially announced from Berlin, according to a Havas dispatch from Basel. The Havas Agency, which transmits the announcement of Emperor William's abdication from Berlin is the semi-official French news agency.

London, Nov. 9.—(British Wireless).—A German wireless message received in London Saturday afternoon states that the German imperial chancellor, Prince Maximilian of Baden, has issued the following decree:

"The Kaiser and the King have decided to renounce the throne. The imperial chancellor will remain in office until the questions connected with the abdication of the Kaiser, the renouncing by the crown prince of the throne of the German empire, and of Prussia, and the setting up of a regency have been settled. For the regency he intends to appoint Deputy Ebert as imperial chancellor, and he proposes that a bill shall be brought in for the establishment of a law providing for the immediate promulgation of imperial suffrage and for a constitutional German national assembly, which will settle finally the future form of the government of the German nation and of those peoples which might be desirous of coming within the empire.—The Imperial Chancellor, Prince von 9, 1918."

A telegram received from Copenhagen from Brunswick by way of Berlin asserts that Emperor William's son-in-law, the Duke of Brunswick, and his successor abdicated.

Deputy Ebert, who, according to the German wireless message, is to be appointed imperial chancellor, is Count Friedrich Ebert, vice-president of Social-Democratic party and president of the main committee of the Reichstag.

Ebert's election to the latter office in June this year was taken to mean that at the time that the Socialists were in the Reichstag had been either reclaimed by the military government or that the Socialists had gained the ascendancy. Later events have proved that the Socialists were in the saddle.

The reigning Duke of Brunswick, whose abdication is announced in a telegram from Brunswick by way of Berlin is Ernest Augustus, a son of the Duke of Cumberland. On May 24, 1913, he married Princess Victoria Louise, the only daughter of Emperor William. They have three sons, the eldest, Ernst August, whose right to the throne has also been renounced, being born March 18, 1914.

Washington, Nov. 9.—Abdication of the German emperor has been officially announced in the French chamber of deputies, according to information reaching Washington through official channels.

In connection with this information, which came by British wireless, the state department asked that it be emphasized that there was no official information in Washington that the Kaiser had abdicated.

Pick Up Radio Message
Washington, Nov. 9.—The state department announced officially tonight that the United States wireless stations had picked up a radio message from Neuven tower in Germany announcing the abdication of the Kaiser. The message came direct from Germany to the American station.

German Emperor's Abdication Ends Tyrannical Reign of the Hated Hohenzollern Dynasty

Abdication is the act of getting up an office. It is something which is done by a person who is no longer wanted or who is no longer able to do the job.

On January 18th, 1871, Kaiser Wilhelm I proclaimed his assumption of the throne of the German Empire.

His reign was marked by the unification of Germany and the establishment of the German Empire.

He was succeeded by his son, Kaiser Wilhelm II, who reigned from 1888 to 1918.

His reign was marked by the German Revolution of 1918 and the abdication of the Hohenzollern dynasty.

The German Empire, founded by Wilhelm I, was a constitutional monarchy.

It was a union of 25 states, each with its own laws and customs.

The German Empire was a powerful nation, with a large army and navy.

It was a nation that had won many wars and had a large empire.

But in 1918, the German people rose up and demanded a new government.

They demanded a republic, a government elected by the people.

The German Emperor, Kaiser Wilhelm II, was forced to abdicate.

His abdication ended the reign of the Hohenzollern dynasty.

The German Empire was replaced by the Weimar Republic.

The Weimar Republic was a democratic government.

It was a government that was elected by the people.

The Weimar Republic was a new beginning for Germany.

"On our right we are along the course of the Somme and have reached an area between the positions of Mouscron and Hirsion. We crossed the Meuse farther east, opposite Lumes."

"Belgian communication: There was lively artillery activity during the night on the Belgian front. Belgian troops are standing along the Ghent-Terneuzen Canal from the Dutch frontier to the Ghent station."

"The French troops in Belgium, advancing beyond the Scheldt, were able, notwithstanding stubborn resistance, to occupy Weiden, where they made a few observations, and reached the Mouscron railway station, which is occupied by British troops. East of Melden the heights of Koppenberg were captured."

Terms of Armistice Imposed on Austria By the Allied Powers

Washington, Nov. 4.—Terms of the armistice under which the land and sea forces of what once was the Austro-Hungarian empire have laid down their arms were announced today simultaneously in Washington and the Allied capitals. They accomplish complete surrender, and open Austrian and Hungarian territory for American and Allied operations against Germany.

From this drastic document, it may be stated, may be gleaned an accurate outline of the conditions nearing completion in the supreme war council at Versailles under which Germany may be offered a cessation of hostilities.

The terms, under which the debate on the Italian front ended today at 3 p.m., includes demobilization of Austrian forces, surrender of one-half of all artillery and military equipment; occupation by American and Allied forces of such strategic places as may later be selected; use of Austrian railroads for operations against Germany; evacuation of all invaded territory; leaving behind all equipment and supplies, including coal; surrender of a portion of the Austrian surface and submarine fleets and disarmament of others under American and Allied control; surrender of all German submarines in Austrian waters, and repatriation of Allied and American prisoners without reciprocity.

Evacuation of Austrian territory roughly corresponding to the boundary lines claimed by Italy under the Italian irredentist treaty of London.

The right of occupation by Allied forces is resumed, local authorities to maintain order under Allied supervision.

The terms of the armistice are to be carried out under the direction of Marshal Foch, who will designate material to be turned over and supervise the movements of Austro-Hungarian forces in the rear.

All German troops in Austria-Hungary, Italy or the Balkans must be out or interned within 15 days.

Destruction of any property by retreating forces is specifically forbidden.

Ships to be surrendered include 15 modern Austrian submarines, three battleships, three light cruisers, nine destroyers, 12 torpedo boats, one mine layer and six Danube monitors to be designated by the Allies. All other war craft are to be concentrated and disarmed under Allied direction.

Free navigation of all Austrian waters by both the war and commercial fleets of the Allies is provided for. All enemy naval aircraft are to be put out of commission and concentrated under Allied control. All Austrian harbors and other equipment in occupied Italian ports is to be left untouched.

The Danube route is to be open by the occupation or dismantling of fortresses to be selected by the Allied commander. The existing blockade of the Allies against Austria remains unchanged. Austrian ships being liable to capture where found except where a commission, to be named later, provides otherwise.

All fortresses protecting naval bases or stations are to be occupied and the arsenal at Pola is specifically surrendered. All Allied craft held by Austria are to be returned immediately.

The only organized military force Austria is permitted to retain is limited to that necessary to maintain order in her own borders.

The terms of the armistice, with parenthetical explanations of minor errors in cable transmission, were announced by the state department today as follows:

1. The immediate cessation of hostilities by land, by sea and air.

2. Total demobilization of the Austro-Hungarian army and immediate withdrawal of all Austro-Hungarian forces operating on the front from the North line to Switzerland. (Within Austro-Hungarian territory limited as in clause three below, there shall only be maintained a small military force, reduced to pre-war effect.)

3. Half the divisional, corps and army military equipment shall be collected at points to be indicated by the Allies and United States of America, for delivery to them beginning with all arms and material as exist in the territories to be evacuated by the Austro-Hungarian State forces.

4. Evacuation of all territories invaded by Austro-Hungarian arms, the withdrawal of the period of withdrawal by the commander-in-chief of the Austro-Hungarian army behind a line to be followed.

From the line to the north of the Danube it will follow the crest of the Albanian Alps to the sources of the Adige and the Danube, thence by Mount Rosetta and then by the heights of Cerna and Brest. The line thence runs south.

The C II to Armies

Premier Aquilard, at the Guild Hall, London, English, Friday, September 4, 1914: Let us keep in mind our patient and indomitable enemy, Germany, who today after a fortnight of continuous fighting under conditions which try the nerves of the bravest, still holds the field and maintains not only an undefeated, but an unbroken front.

"Finally, let us recall the memories of the great men and great deeds of the past."

"Let us not forget the dying message of the younger Pitt in his last public utterance in this Guild Hall itself: 'England has saved herself by her exertions and will as I trust save Europe by her exertions.'"

"The great men and great deeds of the past have given a noble answer to his appeal and did not share the fate of the hero who nearly twenty years of fighting the freedom of his country secured. Let us go on and do better."

SOCIALIST DEMANDS

The German Socialists submitted an ultimatum embracing the following demands, as unconditional surrender, surrounding their co-operation with the government.

First—The right of public assembly.

Second—the military and police must be ordered to exercise great reserve.

Third—the immediate transformation of the Prussian government in conformity with the views of the majority in the Reichstag.

Fourth—Greater Socialism in the Reichstag.

Fifth—the abdication of Kaiser Wilhelm and the proclamation of the throne by the Crown Prince.

Surrender of Turkey Was Unconditional

LONDON, Nov. 1.—The armistice accepted by Turkey amounts to "complete and unconditional surrender."

This statement was made by Lord Robert Cecil, the Secretary of State for Foreign Affairs, to the Associated Press.

Lord Robert Cecil supplemented the statement of the foreign office to the Associated Press by saying: "No secret undertakings or engagements have been made with the Turkish Government."

He added that the armistice had been signed by Great Britain, on behalf of all the Allies.

Discussing conditions in Germany, Lord Robert Cecil said the British Government was not prepared to discuss the last day or two were that the parties were not in the hands of the British Government.

He declared that no Bolshevikism had been reported in Germany, but that it was spreading in a part of Austria.

MASK ORDER IS
LEGAL AND CAN

(Continued from Page Three)

State Public Health Service, the following sentences are taken with reference to this epidemic:

"The source of infection are undoubtedly the secretions from the nose, throat and lungs, of cases or carriers and the mode of transmission is by direct or indirect infection of those secretions by droplet infection or by means of handkerchiefs, towels, eating utensils, etc."

"That the disease may be controlled under suitable conditions was shown by many instances of institutional isolation in the height of epidemic of 1892 to 1893."

Note the word "indirect" and particularly the word "carriers."

The word "carrier" is used because when the patient has completely recovered, the bacteria still may be there, and if the patient moved about that patient becomes a carrier of the germs.

The law, therefore, of this and every civilized country now is that in cases, for example, of diphtheria, a patient can be released from quarantine for diphtheria until he is clean from the throat shows that there are no diphtheria germs there.

It is a commonly known fact that to prevent disease we filter the water, we filter the air in all up-to-date buildings. Attendees on tuberculosis, scarlet fever, measles, diphtheria, etc., wear masks in all medical centers, worthy of recognition, so do surgeons operating.

Professor Marchon of the Pasteur Institute in Paris has expressly stated that the plague could be completely wiped out in any country if every person wore masks continuously for several successive days.

There is absolute unanimity of backing, therefore, for the use of the three-dimension cloth mask in public buildings, and either inside or outside in contact with people.

Outside there is less difficulty in getting pure air through the mask than there is inside, and all agree that it should be worn inside. Some sweet reasonableness, however, should be used in enforcing the law away outside.

It is difficult to draw a practical line there, if people are allowed to start out on their own, and then carrying a mask, they will go into houses and get into crowds and have no mask to wear, and unconsciously may endanger their own and everybody else's life, but the officers in enforcing the law please remember that the great danger is when people are close together and therefore in such case there is absolute danger in not wearing the mask.

Well Observed, Generally Speaking generally, the regulations are being well observed. The medical board, the local boards, physicians, nurses and the people are all working in harmony. The head of the department spent an hour Sunday afternoon with the members of the medical profession at their meeting in the Civic Building, where they discussed treatments, interchanged views, made recommendations, and the high opinion he has ever held of the profession was strengthened by their record of untiring and self-sacrificing work that incidentally came up in the discussion.

The view of the medical profession in this city as to the mask regulation may be put briefly. They particularly emphasize the danger zone. One of them raised the question, "Why should people on the street be obliged to wear masks when practicing officers who have not the disease?" The reply that came back with promptness and vigor from one of the most experienced and skilled physicians in the city, whose name is well known in the province, was to this effect: "How do you know the others are not infected, how do they know you are not? The safe practice is to pay money and wear a mask strictly the mask regulation with a suitable restriction as to outside work," and such was their recorded verdict.

Their view point is absolutely right so far as protecting the public is concerned, and will the public, when occasionally they see a physician not wearing a mask, driving to see some out patient, please remember that that physician has probably been in a hospital continuously four or five hours, perhaps more. He has been in the danger zone all the time. When he left the hospital and got his hat on, he discarded his mask, and will boil it or burn it at night; he has a supply along when he has gone possibly several miles into the country to see a patient he will place it close to his face; but he is working eighteen hours a day and the continuous wearing of the mask is injurious to him and tends to lower his vitality. Therefore, I think he is ignoring the law, or that he doesn't favor the regulation, or occasionally he wants to breathe untrammelled the fresh air and brace himself for the balance of his long, hurried day.

Business Hours After two days' operation of the 12:15 closing regulations were made to the city council Saturday evening at a special meeting, and after considerable deliberation the hours were changed from 10 to 5:15, with the understanding that employers, so far as possible, knowing the difficulty of wearing the mask during long hours, will so arrange the work of their employees as to shorten their hours where possible. There are a few kickers. There always will be. These fellows ought to know that dead men don't do business in this world and they will do none in the next, as their goods won't stand the heat.

General There is little change in the general situation. It is thought we are over the worst of it in this city. That is not correct, speaking generally, in the northern half of the province. Help where available is being sent in different points, but there is an insistent call from many points in the north, particularly in the northern half of the province.

The first one thousand cases reported show 113 males and 488 females. An analysis of 489 deaths registered showed the following as to ages and sex:

Another doctor has fallen in the fight. Dr. Boyce of Alliance, cousin of the Hon. J. H. Boyce.

The South Country The following calls at the Calgary public health office Sunday indicate that the battle is still on in the South. Cadby has 10 cases, a hospital and one nurse. Champion, 70 cases, nurse ill, organizer sent down. Irvine very bad; 105 cases, no doctor, no nurse; nurse sent down. Eckelau needed help; help sent. Empress, 180 cases, doctor and nurse ill; help sent. General calls for help; will be sent; Hal-hal needs help; will be sent; and so on as to a few other points.

Germany Is Beaten—

SHE may not yet admit it, and may still fight on, but whether she accepts the armistice terms submitted by the Allies' at her request, or not, the final outcome is no longer in doubt. The proud Prussian is being humbled and will be made to pay for his crimes against humanity.

Instead of having a deterrent effect upon the Victory Loan, the prospect of an early peace should prove a great stimulus to the campaign. It is in very truth now a "Victory" Loan.

In addition to the behind a Victory excellent rate of in-per cent., and a Dominion of Canada every man with \$50 share of the issue.

When it is realized, too, that these bonds may be bought on payments of only 10 per cent. of their face value, the balance payable in nine equal monthly installments, no one should be unable to make the purchase of at least one bond.

Don't imagine that because the war may be over soon, there will not be necessity for the loan. There will still be expenditures on account of the prosecution of the war for many months to come, and if Canada is to continue her prosperity she must get the money from her own citizens in the form of loans

To subscribe to the Victory Loan, therefore, is to help to preserve the prosperity of this country, and is a national duty.

Berlin Occupied by Forces of Soldiers--Ministers Resign

COPENHAGEN, Nov. 10.—Berlin was occupied by forces of soldiers and workmen's delegations on Saturday afternoon, according to Wolff Bureau dispatches Sunday morning.

Ministers Resign

ZURICH, Nov. 10.—Because of the troubles in the interior of Germany, Prince Maximilian of Baden and all the bourgeois ministers have resigned, says a dispatch from Berlin. Friedrich Ebert, the German Socialist leader, has been definitely recognized as chancellor.

TO Spread Revolt.—Bremen for the purpose of persuading other towns to join the revolution, with soldiers has been sent out from a detachment from the Danish front.

No Luck for Him

This child won't play or smile. He is real sick. His tongue is white, breaths feverish, stomach sour. He fears he is in for a dose of awful castor oil, calomel or pills. How he hates them. He would rather remain sick. No! He won't tell mother! If his mother would only learn the value of candy "Cascarets." How children love this candy cathartic—how surely it acts on liver and bowels.

TO MOTHERS! Each ten cent box of Cascarets contains full directions for dose for children aged one year old and upwards. Nothing else "works" the nasty bile, sour fermentations and constipation in poison from the tender little bowels so gently, yet so thoroughly. Even cough, feverish, bilious children gladly take Cascarets without being coaxed. Cascarets taste just like candy. Cascarets never grip, never sicken, never injure, but above all, they never disappoint the worried mother.

What Should You Do If You Get the 'Flu

One of the crying circumstances of the present plague is the lack of medical aid. Don't blame the doctor. All the medical men of the Province are working themselves to exhaustion in the fight. The writer of this advertisement has been out and is attending to the sick needs of the foreign settlements and by doing so has found out what is required.

TO THE LOCAL BUSINESS MAN IN DISTRICTS

Year is the disagreeable of all months. It is the disagreeable to the country to see some towns actually building wire fences around the town, and policing the roads, giving every outward appearance of cowardice. Instead of this, your place is to go out into the land and help the sick and encourage the dying. I have nothing but contempt for those towns that have shut themselves in and told the whole district to go to hell. "YOU DIE, WE TAKE NO CHANCES." By all means, if you shut up your town, BE BRITISH. Go out with your arms, take some medicine with you, and, if necessary, die with others. Don't sit back and let the whole countryside suffer for want of the intelligent help a business man can give. Don't leave it to you young Edmonton men to do.

IN THE FOREIGN SETTLEMENTS

Have patience with these cases. Remember, the old folks are a God-fearing, religious people. Sympathize with their manners and customs. Go in fearlessly. Show them an example. They simply don't know what to do other than lie with their rosary in their hands, pleading with their God for help. The younger set are no so, but they are at a loss what to do. What is wanted is direction. You can give that.

In entering a house, open the windows and let them know that fresh air is a prime requisite. Tell them to keep the windows open and keep the fire going for heat. Keep the patient well covered. Take the temperature with a thermometer, which you can get at your local drug store—98 is normal temperature; 104 means approaching danger; 106, dangerous case. Give patient Aspirin tablets—one or two for headache, if that symptom is showing. Two quinine capsules always, one in morning and one at night. See that the bowels are kept moving; use cathartic pills—two to a dose. If necessary, wash up the dishes, sweep the floor, and generally show your good heart. For sick patients, only liquid food—milk, broth, soup, water (hot or cold). For convalescent patients, some toast, little chicken; avoid over-eating. Don't antagonize the religious instincts in the old folks. Get the priest if they want. Where danger occurs to the head of the family, take a piece of paper and make out his will for him; have him sign it and you witness; bring the document in to your local solicitor. At no time time allow patient to know of danger in bad cases. Tell them that the reason doctors are dying is because they are overworked and fall down with the disease by being run down and with no sleep. See that neighbors do the chores. Don't allow patients out of bed until five days after they feel well. EMPRESS UPON them this fact, that there is no danger of death from the plague—only it occurs after a person is feeling well, gets up, and catches another chill. The body is then not able to fight the second attack and death is certain.

You can fence your town, put out your men to stop the traffic on the roads, but YOU CAN'T DEFEAT THE PLAGUE THAT WAY. Do you know that on the east coast a lighthouse stands forty miles from land. Nobody has been at the lighthouse for the last two months, yet the lighthouse keeper died of the 'Flu'. It is in the air—and you can't fence that. While men and women are going down to death by the hundred, for God's sake and civilization, be British. TAKE YOUR CARE OUT NOW. DO YOUR DUTY TO YOUR CITIZEN NEIGHBOR IN DISTRESS. Your town may be next to die.

Die like a man fighting the battle for the sick.

A. F. A. COYNE,
President Northern Production Co., Ltd., Edmonton.

By following these instructions you will save a wide-goose chase for the doctor. Organize and report cases at 103 temperature to the doctor, thus systematizing his calls.

TO REMOVE DANDRUFF

Get a small bottle of Dandérine at any drug store for a few cents, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful dandruff will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.

U.S. FREIGHTER SUNK BY MINE OFF MARYLAND

All Crew of Vessel Escaped Before She Went to the Bottom

OCEAN CITY, Md., Nov. 9.—At 8:20 Saturday morning the American steamer Sactia struck a mine off shore five miles from shore, sinking within two minutes.

WASHINGTON, Nov. 9.—Information received tonight by the navy department indicated that all of the crew of the steamer Sactia had been rescued before the vessel sank this off the Maryland coast, presumably after striking a mine.

An announcement by the department said seven officers and forty men had been landed at coast guard station No. 146 on the Delaware coast and that thirty-seven thirty-eight men, all the remainder of the crew, had gotten away in boats.

OCEAN CITY, Md., Nov. 9.—A raft with eighteen men from the freighter Sactia, has just been brought in by a patrol boat.

PROTEST AGAINST ZIONIST GOVERNMENT

New York, Nov. 9.—Resolutions protesting against the movement to establish a Zionist government in Palestine as being a "usurpation of the homes and property of a weakened, oppressed people by a powerful, corrupt and rich and powerful through concert with world revolutionaries" were adopted here last night by 200 members of the Jewish Youth Men's society of New York State, and other strong Syrian organizations in this country.

THE BAVARIAN REVOLUTIONARIES - STATE CASE

Amsterdam, Nov. 8.—The proclamation issued at Munich in behalf of the council of workers, soldiers and peasants which constituted itself into a Diet, announcing that a republic had been formed in Bavaria, and that the democratic and socialist revolution of 1918 had been realized, to realize a peace for Germany, preserving that country from the war.

The proclamation, after promising a constituent assembly to be elected by all adult men and women, says that Bavaria will take Germany ready for a league of nations. It then continues: "The present revolution is needed to complete the self-government of the people before enemy armies stream across our country or before foreign troops should, after the armistice, bring about chaos."

Will Maintain Order.—"The council will ensure strict order. Soldiers in barracks will govern themselves by means of officers' councils. Officers acquiescing in the altered situation will not be hindered in their duties."

We reckon on the cooperation of the entire population. All officers will remain at their post. "Fundamental, social and political reforms will immediately commence."

REVOLUTION IS SPREADING IN GERMANY

COPENHAGEN, Nov. 9.—Rebellions have occurred in Hanover, Cologne, Brunswick and Magdeburg, according to the official announcement tonight at Berlin.

These cities, however, are not entirely in the hands of the mutineers, the statement adds. At Magdeburg the garrison resisted.

AMSTERDAM, Nov. 9.—Latest advices received here confirm reports that the revolutionary movement at Cologne is gradually spreading throughout the entire western part of Germany. Thus far the revolt has been orderly, with no bloodshed.

WHY PAY 15c PER QUART FOR MILK?

BUY MILCH GOATS

These Will be Offered For Sale to the Citizens of Edmonton and Surrounding Districts After the 10th of November at Our Yard

10019, 103rd Avenue Under the Auspices of the Alberta Goat Breeders' Association with Headquarters at Calgary

These Goats will milk from two to four quarts daily of pure wholesome milk. Any child can milk and care for one of these Goats.

Three pounds of rough hay and one-quarter of a pound of oats is a good daily feed for one goat when she is milking. They will milk from seven to nine months per year.

They are all bred to our registered Nubian bucks to come from this winter. We will have a registered Nubian buck in Edmonton and Calgary for free service all the winter.

Anyone thinking of securing their permanent milk supply at a very low cost had better make it a point to inspect these goats at above address at an early date as the demand is great and the supply limited.

And you
